We use cookies and similar tools across our website to improve the performance and enhance your user experience. By viewing our content, you are accepting the use of cookies.

What are cookies?

Cookies are small text files which a website may put on your computer or mobile device when you first visit a site or page. The cookie will help the website, or another website, to recognise your device the next time you visit. Web beacons or other similar files can also do the same thing. We use the term "cookies" in this policy to refer to all files that collect information in this way.

There are many functions cookies serve. For example, they can help us to analyse how well our website is performing.

Certain cookies can contain personal information – for example any answers given during the registration process. Most cookies won't collect information that identifies you, and will instead collect more general information such as how users arrive at and use our website.

What sort of cookies do we use?

Generally, our cookies perform up to three different functions:

1. *Performance Cookies*

We utilise other cookies to analyse how our visitors use our websites and to monitor website performance. This allows us to provide a high quality experience by customising our offering and quickly identifying and fixing any issues that arise. For example, we might use performance cookies to keep track of which pages are most popular, which method of linking between pages is most effective, and to determine why some pages are receiving error messages.

2. *Functionality Cookies*

We use functionality cookies to allow us to log your answers when completing our registration form, your answers are then submitted to us and the cookies deleted.

3. *Stylistic Cookies*

We use third party services such as Google fonts to make our web site nicer to look at. Some of these third parties make use of cookies.

Can a website user block cookies?

As we've explained above, cookies help you to get the most out of our website.

The first time you accessed our website you should have seen an overlay which explained that by continuing to access our site, you are consenting to our use of cookies.

However, if you do wish to disable our cookies you can opt out of Google Analytics tracking by visiting this page https://tools.google.com/dlpage/gaoptout and following the instructions.

To avoid tracking by our registration form, simply refrain from using it, as its functionality requires the use of cookies in order to function.

Please remember that if you do choose to disable cookies, you may find that certain sections of our website do not work properly.
